BOAT SALES

LAKELAND LEISURE ESTATES

Description

Step aboard this brand new 2026 70ft x 12ft 3in Collingwood Abode widebeam, a stunning two-bedroom vessel that showcases the very best of modern inland boating. As Collingwood's flagship Abode model, this exceptional widebeam has been specified with approximately £25,000 of premium upgrades, including thermal break double glazed windows and portholes, 5G Wi-Fi connectivity and an impressive solar power system. Designed to offer luxurious, residential-style accommodation, this beautifully appointed boat provides generous living spaces, high-end finishes and outstanding practicality throughout. Whether you are looking for a stylish and spacious leisure cruiser or a luxury floating home, this remarkable vessel is ready to exceed expectations.

The kitchen has been thoughtfully designed to combine contemporary styling with exceptional functionality. Solid wood worktops complement the integrated Belfast sink and central island, which features a four-burner gas hob beneath a striking extractor hood. An extended breakfast bar with stools creates the perfect place for casual dining or entertaining. The comprehensive range of integrated appliances includes a full-size fridge and freezer, eye-level oven, combination microwave, dishwasher, washer/dryer and wine cooler, while an extensive selection of cupboards and drawers provides excellent storage for everything required for everyday living.

The spacious lounge offers a welcoming and elegant living area where comfort and style come together. A large sofa provides the ideal place to relax beside the Morso multi-fuel stove, while the impressive extra-large skylight floods the room with natural light. A 49-inch smart television creates an excellent entertainment space, and thoughtfully designed shelving and cabinetry provide generous storage without compromising the clean, contemporary feel of the interior.

The second bedroom is a beautifully finished guest room that offers comfortable accommodation for family or friends. A full-size double bed is complemented by a double wardrobe and additional mirrored single wardrobe, providing ample storage for clothing and personal belongings. A dedicated workstation or dressing area with an upholstered ottoman seat creates a practical and versatile space, while further drawers and cupboards ensure everything has its place.

The luxurious bathroom has been finished to a high standard and offers all the comforts of home. A full-size roll-top bath provides the perfect place to unwind, while a separate shower enclosure with twin sliding doors offers everyday convenience. The ceramic pump-out toilet, stylish feature wash basin and heated towel rail enhance both practicality and comfort. Tiled flooring, extensive cabinetry and generous shelving complete this beautifully appointed space.

Positioned at the bow, the impressive master bedroom serves as a luxurious private retreat. The king-size bed is flanked by bedside units, while two mirrored double wardrobes and an additional single wardrobe provide extensive storage. A dedicated workstation or dressing area with upholstered ottoman seating adds further versatility, complemented by illuminated display shelving, numerous cupboards and drawers, and a rise-and-fall smart television for added luxury. Glazed double doors lead directly onto the spacious cratch-covered well deck, creating a wonderful indoor-outdoor living space that is perfect for relaxing or enjoying al fresco dining beside the water.

Externally, this Collingwood Abode is equally impressive. The large wrap-around cruiser stern is protected by a full pram cover, creating an excellent outdoor social space whatever the weather. At the bow, the spacious cratch-covered well deck extends the living area even further, offering the ideal setting for outdoor dining or simply enjoying the surrounding waterways. The vessel also benefits from a side hatch in the kitchen, allowing additional light and ventilation while providing easy access to the towpath.

Powered by the reliable Canaline 60 engine coupled with a PRM 150 gearbox, this brand new vessel has commissioning hours only, with its first service due at 50 hours. A Vetus 95kgf bow thruster makes manoeuvring effortless, while the comprehensive electrical system includes approximately 2kW of solar generation via five rigid panels, four domestic batteries, a 3kW Victron Multiplus inverter charger, twin Victron MPPT controllers and a Victron Cerbo monitoring system. Hot water is supplied via the engine, calorifier, immersion heater and 9kW Webasto diesel boiler, while central heating is provided by the Webasto system feeding radiators throughout, complemented by a Morso Squirrel multi-fuel stove. The boat also features a 580-litre stainless steel water tank, 500-litre fuel tank, 500-litre waste tank, thermal break double glazing, spray foam insulation, galvanic isolator, ceramic pump-out toilet, shoreline connection and full RCD/RCR certification for the first four years, providing complete peace of mind for its new owner.
