BOAT SALES

LAKELAND LEISURE ESTATES

Description

Step aboard this beautifully crafted 60ft by 12ft 6" Eurocruiser Widebeam and enter a world of elegance, comfort, and modern living. Built in 2024 by the highly regarded Collingwood Boat Builders, this vessel has been designed to provide the perfect balance of style and functionality—whether as a permanent home or a luxurious cruising retreat.

Beneath its sleek exterior, the boat is powered by a reliable Canaline 60hp engine, with the added precision of a Vetus 95KGF bow thruster for smooth and effortless manoeuvring. The hull is finished with a robust 2-pack epoxy coating, offering superior protection from the elements and peace of mind for long-term maintenance. Internally, generous 7ft headroom and full spray foam insulation ensure year-round comfort, making this widebeam ideal for life in all seasons.

The galley is a standout feature, blending practicality with high-end finishes. White granite worktops, a classic Butler sink, and a built-in breakfast bar set the scene for casual dining and entertaining. Cooking is a joy with the built-in oven, 4-ring hob, integrated fridge/freezer, and wine cooler. A built-in washing dryer completes the space, offering all the conveniences of home in a sleek, open-plan setting.

The lounge is inviting and spacious, featuring a large corner sofa perfect for relaxing with friends or enjoying a quiet night in front of the Morso multi-fuel stove. Ample shelving and storage keep the space tidy, while a 40" LG TV provides the perfect centrepiece for cosy evenings onboard.

The corridor between lounge and bedroom includes a large built-in cupboard, offering excellent extra storage. The adjacent bathroom continues the boat's luxurious theme, with a large enclosed shower, pump-out toilet, and dual washbasins set into stylish cabinetry, providing plenty of space for toiletries and towels.

The master bedroom is a tranquil retreat, featuring a king-sized bed, two double wardrobes, and plenty of built-in shelving, drawers, and a dressing table. Thoughtfully designed steps lead from the bedroom to the bow deck—a perfect spot for morning coffee or evening reflections by the water.

For extended cruising or comfortable liveaboard living, the boat is exceptionally well-equipped. A Webasto 5kW central heating system complements the stove to keep the cabin warm throughout the year. A 575-litre water tank, 250-litre black water tank, and 330-litre fuel tank support off-grid adventures, while two 13kg gas cylinders power cooking and heating systems. A stylish pram cover provides protection over the stern deck and additional outdoor living space.

With its elegant layout—galley, lounge, bathroom, and master bedroom arranged stern to bow—this widebeam offers a seamless flow, combining contemporary design with the practicality and resilience needed for life on the water.

This is more than just a boat; it's a floating home built for comfort, convenience, and connection to the beauty of the British waterways.
