BOAT SALES
LAKELAND LEISURE ESTATES

Description

Introducing Aupa!, a beautifully presented 60ft widebeam, built in 2020 by Collingwood with an owner-designed fit-out that exudes individuality, comfort, and quality craftsmanship. Having had just one owner from new, this remarkable vessel has been meticulously cared for and tastefully designed to offer an exceptional contemporary liveaboard lifestyle. With a thoughtful two-bedroom, two-bathroom layout and a wealth of modern conveniences, Aupa! blends cosy riverside charm with sleek residential features, making her ideal for full-time living or luxury leisure cruising.

Stepping aboard, you're welcomed into a warm and inviting interior finished with high ceilings and excellent natural light. The spacious saloon is a relaxing sanctuary, complete with a reclining two-seater sofa, a multi-fuel stove with a built-in oven for those snug winter evenings, and a folding dining table and chairs—perfect for intimate dining or entertaining aboard. A side hatch brings the outside in, offering peaceful waterside breezes and scenic views from your living space.

The well-equipped galley sits mid-ships and showcases an impressive modern finish. Designed for serious home cooking, it includes a freestanding five-ring gas hob and oven, a full fridge-freezer, generous under-counter storage, and stylish overhead shelving. A unique glass-floor wine cellar adds a spectacular touch of luxury, making this kitchen not only functional but also a standout feature on board.

Accommodation aboard Aupa! is superbly arranged, beginning with the versatile second cabin at the stern, featuring a fold-down Murphy-style single bed and an additional sink — ideal as a guest bedroom, home office, or creative studio space. The luxurious master suite at the bow offers tranquillity and comfort, with a king-size bed, smart cube storage and shelving, and direct access to the bow deck for peaceful morning coffees or evening sunsets.

The main bathroom provides everything needed for comfortable long-term living, including a bath with overhead shower and folding screen, vanity sink with mirrored cabinet, cassette toilet, and a convenient Beko washer-dryer. Underfloor heating runs throughout the cabin for cosy winters on the water, supported by a modern hot water system and the warmth of the stove.

Under the hood, Aupa! is just as impressive. Powered by a Canaline 52hp engine with only 780 hours and last serviced in October 2025, she promises reliable cruising. With a Boat Safety Certificate valid until April 2029, blacking completed in July 2025, and a robust hull specification, she's fully prepared for comfortable, worry-free cruising for years to come. A bank of 6 Victron AGM batteries and a Victron 3000W inverter/charger system provide dependable off-grid capability, complemented by shore power connection when moored.

Aupa! is a rare opportunity to secure a beautifully maintained, expertly finished modern widebeam that truly feels like home. With every detail considered and impeccable presentation throughout, she offers the perfect blend of style, practicality, and character — a floating home ready for her next chapter.
