BOAT SALES

LAKELAND LEISURE ESTATES

Description

Bluebell is a charming 28ft steel narrowboat, expertly designed and built by the Little Boat Co in 2014. Compact yet incredibly versatile, this narrowboat is perfect for those who love the freedom of exploring the waterways. Its go-anywhere design ensures it can navigate both narrow canals and open waters with ease. Powered by a reliable Beta Marina engine, Bluebell provides smooth, effortless cruising, offering the ideal blend of performance and efficiency. Whether you're a seasoned boater or a newcomer to life on the water, this beautifully maintained boat is the perfect companion for your next adventure.

One of Bluebell's standout features is her eco-friendly design, thanks to solar panels that allow for off-grid living and more sustainable travel. The solar setup reduces the need for engine-generated power, making it ideal for those looking to reduce their environmental impact while enjoying life afloat. Bluebell has been meticulously maintained, meaning she's ready for you to step aboard and start your journey right away.

Galley: Despite her compact size, Bluebell's galley is surprisingly spacious and functional, featuring plenty of storage with large larder units and base cabinets. A sleek laminate worktop integrates a stainless-steel sink with mixer taps for convenience, along with a water filter tap to ensure access to fresh, clean drinking water. For cooking, the galley is equipped with a Thetford gas oven and a four-ring gas hob, giving you all the tools needed to whip up delicious meals while on the go. The built-in fridge ensures your food stays fresh, so you're always well-stocked for your adventures.

Lounge: The cosy and cleverly designed lounge area is the perfect spot to relax after a day of cruising. It features two long seats that easily convert into a large bed, providing a comfortable sleeping area for the night. The lounge's multi-fuel stove creates a warm, inviting atmosphere, making it a great place to unwind during cooler evenings. Ample storage space under the seats ensures you have room to store your belongings without cluttering the living space. Additionally, the lounge is equipped with a multimedia area that includes drawers, a TV aerial, and a radio, offering entertainment options for when you're docked or cruising. The thoughtfully stowed table can be easily set up, transforming the space into a dining or games area where you can enjoy meals or social activities with views out over the well deck.

Bathroom: Bluebell's wet room-style bathroom offers a functional and comfortable design. It includes a Thetford cassette toilet with a spare cassette for added convenience during longer trips, ensuring minimal interruptions. The washbasin with mixer taps provides a practical space for washing up, and the shower comes with a raiser rail, adding flexibility and ease of use.

With its well-thought-out layout and high-quality fittings, Bluebell offers a delightful and compact living space that is perfect for long or short trips on the waterways. Whether you're cruising solo, as a couple, or with friends, Bluebell's balance of comfort, functionality, and eco-friendly features make her an ideal choice for those seeking new adventures on the water.

Start your journey aboard Bluebell today, and experience the charm and versatility of this lovingly crafted narrowboat!
